HAD-29J35J is a 2.92mm Female to 3.5mm Female between series adapter manufactured by HASCO Components. This between series 2.92mm to 3.5mm coax adapter will operate up to 34.5 GHz and offers a VSWR of 1.15:1. Adapters that have a male to female or plug to jack configuration are known as "connector savers." Typically, a low loss or low VSWR male to female adapter is placed on more expensive component connectors to prevent damage.
