

Features

- RoHs Compliant 

The HASCO **HA-SMAP-DC-BC** is an male dust cap compatible with SMA, 2.92mm, and 3.5mm.

A dust cap is one of the simplest RF coaxial interconnect devices. It is used mainly to protect RF connectors from dust particles and contaminants which can cause damage to test and measurement equipment or precision testing cables. They also protect the connector interface when not in use.

Material

- Body: Nickel plated Brass
- O Ring: Silicone
